

Country Focus Document

Orange Knowledge Programme (OKP)

Last update: 30 July 2019

Co-funding is the only change in this version compared to former versions. In former versions, the required co-funding had to be provided entirely by the requesting organisation.

Co-funding

Note that co-funding is only applicable for group trainings and institutional collaboration projects – not for individual scholarships. The percentages shown below in the “co-funding” column show the minimum percentage of co-funding required. At least half of this minimum percentage should come from the requesting organization. The remaining required amount of co-funding is free to come from various other sources.
